SEC. 4105. DESIGN-BUILD SELECTION PROCEDURES.

(a) **ARMED SERVICES ACQUISITIONS.**—(1) Chapter 137 of title 10, United States Code, is amended by inserting after section 2305 the following new section:

"§ 2305a. Design-build selection procedures

"(a) **AUTHORIZATION.**—Unless the traditional acquisition approach of design-bid-build established under the Brooks Architect-Engineers Act (41 U.S.C. 541 et seq.) is used or another acquisition procedure authorized by law is used, the head of an agency shall use the two-phase selection procedures authorized in this section for entering into a contract for the design and construction of a public building, facility, or work when a determination is made under subsection (b) that the procedures are appropriate for use.

"(b) **CRITERIA FOR USE.**—A contracting officer shall make a determination whether two-phase selection procedures are appropriate for use for entering into a contract for the design and construction of a public building, facility, or work when the contracting officer anticipates that three or more offers will be received for such contract, design work must be performed before an offeror can develop a price or cost proposal for such contract, the offeror will incur a substantial amount of expense in preparing the offer, and the contracting officer has considered information such as the following:

"(1) The extent to which the project requirements have been adequately defined.

"(2) The time constraints for delivery of the project.

"(3) The capability and experience of potential contractors.

"(4) The suitability of the project for use of the two-phase selection procedures.

"(5) The capability of the agency to manage the two-phase selection process.

"(6) Other criteria established by the agency.

"(c) **PROCEDURES DESCRIBED.**—Two-phase selection procedures consist of the following:

"(1) The agency develops, either in-house or by contract, a scope of work statement for inclusion in the solicitation that defines the project and provides prospective offerors with sufficient information regarding the Government's requirements (which may include criteria and preliminary design, budget parameters, and schedule or delivery requirements) to enable the offerors to submit proposals which meet the Government's needs. If the agency contracts for development of the scope of work statement, the agency shall contract for architectural and engineering services as defined by and in accordance with the Brooks Architect-Engineers Act (40 U.S.C. 541 et seq.).

"(2) The contracting officer solicits phase-one proposals that—

"(A) include information on the offeror's—

- “(i) technical approach; and
- “(ii) technical qualifications; and
- “(B) do not include—
- “(i) detailed design information; or
- “(ii) cost or price information.

“(3) The evaluation factors to be used in evaluating phase-one proposals are stated in the solicitation and include specialized experience and technical competence, capability to perform, past performance of the offeror’s team (including the architect-engineer and construction members of the team) and other appropriate factors, except that cost-related or price-related evaluation factors are not permitted. Each solicitation establishes the relative importance assigned to the evaluation factors and subfactors that must be considered in the evaluation of phase-one proposals. The agency evaluates phase-one proposals on the basis of the phase-one evaluation factors set forth in the solicitation.

“(4) The contracting officer selects as the most highly qualified the number of offerors specified in the solicitation to provide the property or services under the contract and requests the selected offerors to submit phase-two competitive proposals that include technical proposals and cost or price information. Each solicitation establishes with respect to phase two—

“(A) the technical submission for the proposal, including design concepts or proposed solutions to requirements addressed within the scope of work (or both), and

“(B) the evaluation factors and subfactors, including cost or price, that must be considered in the evaluations of proposals in accordance with paragraphs (2), (3), and (4) of section 2305(a) of this title.

The contracting officer separately evaluates the submissions described in subparagraphs (A) and (B).

“(5) The agency awards the contract in accordance with section 2305(b)(4) of this title.

“(d) SOLICITATION TO STATE NUMBER OF OFFERORS TO BE SELECTED FOR PHASE TWO REQUESTS FOR COMPETITIVE PROPOSALS.—A solicitation issued pursuant to the procedures described in subsection (c) shall state the maximum number of offerors that are to be selected to submit competitive proposals pursuant to subsection (c)(4). The maximum number specified in the solicitation shall not exceed 5 unless the agency determines with respect to an individual solicitation that a specified number greater than 5 is in the Government’s interest and is consistent with the purposes and objectives of the two-phase selection process.

“(e) REQUIREMENT FOR GUIDANCE AND REGULATIONS.—The Federal Acquisition Regulation shall include guidance—

“(1) regarding the factors that may be considered in determining whether the two-phase contracting procedures authorized by subsection (a) are appropriate for use in individual contracting situations;

“(2) regarding the factors that may be used in selecting contractors; and

“(3) providing for a uniform approach to be used Government-wide.”.

(2) The table of sections at the beginning of chapter 137 of such title is amended by adding after the item relating to section 2305 the following new item:

"2305a. Design-build selection procedures."

(b) **CIVILIAN AGENCY ACQUISITIONS.**—(1) Title III of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 251 et seq.) is amended by inserting after section 303L the following new section:

"SEC. 303M. DESIGN-BUILD SELECTION PROCEDURES.

"(a) **AUTHORIZATION.**—Unless the traditional acquisition approach of design-bid-build established under the Brooks Architect-Engineers Act (title IX of this Act) is used or another acquisition procedure authorized by law is used, the head of an executive agency shall use the two-phase selection procedures authorized in this section for entering into a contract for the design and construction of a public building, facility, or work when a determination is made under subsection (b) that the procedures are appropriate for use.

"(b) **CRITERIA FOR USE.**—A contracting officer shall make a determination whether two-phase selection procedures are appropriate for use for entering into a contract for the design and construction of a public building, facility, or work when the contracting officer anticipates that three or more offers will be received for such contract, design work must be performed before an offeror can develop a price or cost proposal for such contract, the offeror will incur a substantial amount of expense in preparing the offer, and the contracting officer has considered information such as the following:

"(1) The extent to which the project requirements have been adequately defined.

"(2) The time constraints for delivery of the project.

"(3) The capability and experience of potential contractors.

"(5) The capability of the agency to manage the two-phase selection process.

"(6) Other criteria established by the agency.

"(c) **PROCEDURES DESCRIBED.**—Two-phase selection procedures consist of the following:

"(1) The agency develops, either in-house or by contract, a scope of work statement for inclusion in the solicitation that defines the project and provides prospective offerors with sufficient information regarding the Government's requirements (which may include criteria and preliminary design, budget parameters, and schedule or delivery requirements) to enable the offerors to submit proposals which meet the Government's needs. If the agency contracts for development of the scope of work statement, the agency shall contract for architectural and engineering services as defined by and in accordance with the Brooks Architect-Engineers Act (40 U.S.C. 541 et seq.).

"(2) The contracting officer solicits phase-one proposals that—

"(A) include information on the offeror's—

"(i) technical approach; and

"(ii) technical qualifications; and

“(B) do not include—

- “(i) detailed design information; or
- “(ii) cost or price information.

“(3) The evaluation factors to be used in evaluating phase-one proposals are stated in the solicitation and include specialized experience and technical competence, capability to perform, past performance of the offeror's team (including the architect-engineer and construction members of the team) and other appropriate factors, except that cost-related or price-related evaluation factors are not permitted. Each solicitation establishes the relative importance assigned to the evaluation factors and subfactors that must be considered in the evaluation of phase-one proposals. The agency evaluates phase-one proposals on the basis of the phase-one evaluation factors set forth in the solicitation.

“(4) The contracting officer selects as the most highly qualified the number of offerors specified in the solicitation to provide the property or services under the contract and requests the selected offerors to submit phase-two competitive proposals that include technical proposals and cost or price information. Each solicitation establishes with respect to phase two—

“(A) the technical submission for the proposal, including design concepts or proposed solutions to requirements addressed within the scope of work (or both), and

“(B) the evaluation factors and subfactors, including cost or price, that must be considered in the evaluations of proposals in accordance with subsections (b), (c), and (d) of section 303A.

The contracting officer separately evaluates the submissions described in subparagraphs (A) and (B).

“(5) The agency awards the contract in accordance with section 303B of this title.

“(d) SOLICITATION TO STATE NUMBER OF OFFERORS TO BE SELECTED FOR PHASE TWO REQUESTS FOR COMPETITIVE PROPOSALS.—A solicitation issued pursuant to the procedures described in subsection (c) shall state the maximum number of offerors that are to be selected to submit competitive proposals pursuant to subsection (c)(4). The maximum number specified in the solicitation shall not exceed 5 unless the agency determines with respect to an individual solicitation that a specified number greater than 5 is in the Government's interest and is consistent with the purposes and objectives of the two-phase selection process.

“(e) REQUIREMENT FOR GUIDANCE AND REGULATIONS.—The Federal Acquisition Regulation shall include guidance—

“(1) regarding the factors that may be considered in determining whether the two-phase contracting procedures authorized by subsection (a) are appropriate for use in individual contracting situations;

“(2) regarding the factors that may be used in selecting contractors; and

"Sec. 303M. Design-build selection procedures."

SEC. 4201. COMMERCIAL ITEM EXCEPTION TO REQUIREMENT FOR CERTIFIED COST OR PRICING DATA.

(a) **ARMED SERVICES ACQUISITIONS.**—(1) Subsections (b), (c), and (d) of section 2306a of title 10, United States Code, are amended to read as follows:

"(b) EXCEPTIONS.—

"(1) IN GENERAL.—Submission of certified cost or pricing data shall not be required under subsection (a) in the case of a contract, a subcontract, or modification of a contract or subcontract—

"(A) for which the price agreed upon is based on—

"(i) adequate price competition; or

"(ii) prices set by law or regulation;

"(B) for the acquisition of a commercial item; or

"(C) in an exceptional case when the head of the procuring activity, without delegation, determines that the requirements of this section may be waived and justifies in writing the reasons for such determination.

"(2) MODIFICATIONS OF CONTRACTS AND SUBCONTRACTS FOR COMMERCIAL ITEMS.—In the case of a modification of a contract or subcontract for a commercial item that is not covered by the exception to the submission of certified cost or pricing data in paragraph (1)(A) or (1)(B), submission of certified cost or pricing data shall not be required under subsection (a) if—

"(A) the contract or subcontract being modified is a contract or subcontract for which submission of certified cost or pricing data may not be required by reason of paragraph (1)(A) or (1)(B); and

"(B) the modification would not change the contract or subcontract, as the case may be, from a contract or subcontract for the acquisition of a commercial item to a contract or subcontract for the acquisition of an item other than a commercial item.

"(c) COST OR PRICING DATA ON BELOW-THRESHOLD CONTRACTS.—

"(1) AUTHORITY TO REQUIRE SUBMISSION.—Subject to paragraph (2), when certified cost or pricing data are not required to be submitted by subsection (a) for a contract, subcontract, or modification of a contract or subcontract, such data may nevertheless be required to be submitted by the head of the procuring activity, but only if the head of the procuring activity determines that such data are necessary for the evaluation by the agency of the reasonableness of the price of the contract, subcontract, or modification of a contract or subcontract. In any case in which the head of the procuring activity requires such data to be submitted under this subsection, the head of

the procuring activity shall justify in writing the reason for such requirement.

"(2) EXCEPTION.—The head of the procuring activity may not require certified cost or pricing data to be submitted under this paragraph for any contract or subcontract, or modification of a contract or subcontract, covered by the exceptions in subparagraph (A) or (B) of subsection (b)(1).

(c) **WAIVER OF STANDARDS.**—The standards determined under subsection (a) to be compulsory and binding may be waived by the Secretary of Commerce in writing upon a determination that compliance would adversely affect the accomplishment of the mission of an operator of a Federal computer system, or cause a major adverse financial impact on the operator which is not offset by Government-wide savings. The Secretary may delegate to the head of one or more Federal agencies authority to waive such standards to the extent to which the Secretary determines such action to be necessary and desirable to allow for timely and effective implementation of Federal computer system standards. The head of such agency may redelegate such authority only to a Chief Information Officer designated pursuant to section 3506 of title 44, United States Code. Notice of each such waiver and delegation shall be transmitted promptly to Congress and shall be published promptly in the Federal Register.
